

SIXTH ANNUAL  
**CALIFORNIA CAPITAL AIRSHOW**  
MATHER AIRPORT • SEPTEMBER 10-11, 2011

**SHOCKWAVE JET TRUCK**

Performance you ask? The ShockWave Jet Truck runs over 300 mph racing airplanes at airshows; holds the world record in a quarter mile for trucks at 256 mph in just 6.36 seconds; and holds the world record for full size trucks at 376 mph as recorded by Guinness Book of World Records. At 36,000 horsepower, the ShockWave has enough power to accelerate at 3 Gs vertical, which is as much as the Space Shuttle!
